

International Federation of Consulting Engineers **FIDIC**

Young Professionals Management Training Programme (YPMTP) 2019

International Federation of Consulting Engineers

YPMTP 2019

Introduction

- Management training for engineers and technical staff
- Based on FIDIC Guide to Practice
- Real life case studies on a virtual platform over 7 months
- Lectures and mentoring by key FIDIC specialists
- Presentation of results and discussions in internet based classroom
- Lecturing and discussions during 5 days in connection with the 2019 FIDIC Conference in Mexico City

YPMTP 2019

- The YPMTP is tailored to consulting engineers or persons with similar technical background wishing to improve their general management skills. Your experience will be tested and honed in dialogue with other Young Professionals (YPs), you will learn from team members with a different background and experience and from the YPMTP Mentors.
- Up to 20 nationalities are represented every year resulting in international networking opportunities for all.
- Has been attended by more than 600 students since 2004 from 80 countries.

International Federation of Consulting Engineers

YPMTP 2019

- **1. Organization and Human Resources**
 - Starting a company and building up your staff
 - Growing the company, risk assessment, organization
 - Ownership structures, from partnership to shareholding
 - Attracting staff, training, work/life balance
 - Merger and acquisition

YPMTP 2019

2. Marketing and business development

- Marketing, branding, reaching the clients, triple bottom line, local or global
- Financial management
- Quality management
- Risk management
- Professional indemnity insurance

YPMTP 2019

3. Business Consolidation

- Client relationship and communication
- Sustainable development
- Business integrity management

How YPMTP works:

- Participants are divided into teams according to time zones
- Case and questions are presented on Podio platform and in Adobe Connect classroom
- Discussions and replies are presented on a Podio platform
- Input is commented upon by mentors and supplemented by lectures
- Monthly classroom sessions where discussions are summarized by two editors from the team
- Everything is recorded and may be retrieved for later study, thus you will never miss a session

- The final sessions take place during 5 days – Tuesday to Saturday - in connection with and prior to the FIDIC Conference. The learning is reviewed through lectures and discussions. The FIDIC Conference itself takes place in the following 3 days – Sunday afternoon to Tuesday.
- The participants will contribute to the Conference through a Future Leaders Workshop Sunday afternoon - to which all Conference participants are invited – where the team will present its own perception of the future requirements to the consulting industry.

On line Monthly Sessions

Question 2.11

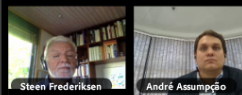

How do you improve budgeting procedures and safeguard quality of financial reporting?

- Market intelligence to forecasting upcoming projects and revenues (Dustan)
- Know-how from previous projects (Jose, Sean).
- Identify political changes (Jose, Werner, Andre).
- Monitor and follow up (Sean, Jens, Keshan)
- Zero-Based Budgeting – ZBB (André)

“A tracking schedule of all submitted proposals is also used by our firm to track the amount of work we have pending adjudication, we normally split this work per division and have a % confidence that we will be awarded the work.” Dustan. It is interesting and we use it here also. The % we use is 10%, 30%, 70% or 90%, really low chances, low, high and really high.
